```java
1 package game.cards;
2
3 public class MoveToCard extends Card{
4
5     private int fieldNumber;
6     public MoveToCard(String cardDescription, int fieldNumber) {
7         super(cardDescription);
8         this.setFieldNumber(fieldNumber);
9     }
10     public int getFieldNumber() {
11         return fieldNumber;
12     }
13     public void setFieldNumber(int fieldNumber) {
14         this.fieldNumber = fieldNumber;
15     }
16
17 }
18
```
