```java
1 package game.cards;
2
3 public class ReceiveCard extends Card {
4
5     public ReceiveCard(String cardDescription, int amount) {
6         super(cardDescription);
7         this.amount = amount;
8     }
9
10     private int amount;
11
12     public int getAmount() {
13         return amount;
14     }
15
16     public void setAmount(int amount) {
17         this.amount = amount;
18     }
19 }
20
```
